You will notice the quality as soon as you enter this modern villa. Designed by world-acclaimed architect Villarroel Torrico and built using the latest sustainable architecture techniques. This new villa offers the perfect combination of a quiet and private environment, on a plot of 4.588 m², surrounded by subtropical Balinese and Japanese gardens. A perfect balance.

The villa offers incredible features, such as 7 en-suite bedrooms with dressing rooms, 11 bathrooms; a gorgeous and glamorous living room with outstanding decoration. Furthermore, there's a library and a dining room that offers direct access to a covered terrace and the incredible garden. The kitchen gets a special mention, blending perfectly and in harmony with the style of this villa, designed by Danespan and equipped with Gaggenau appliances.

The outsides of this property are one of the main factors, with gardens specially designed to enjoy the warm weather. The huge swimming pool opens up to the golf course, and to the right of the property, there's a separate sitting area with an outdoor kitchen. Ideal for hosting events and meetings! From the gym in the basement, you have access to a zen garden.

When acquiring this villa, you get a 'dream mansion' and a property designed to meet your everyday needs. Its comfortable distribution, its dreamy surroundings, and its comfortable location are made for modern living. There are endless benefits of living in a newly built villa, but the most important one is that in this villa you will be creating unforgettable memories from the start.
